

## 2022 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2022 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2022: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2022, 8,180,236 clients received SMHA services from 59 states and U.S. territories. This is a decrease from 8,195,517 SMHA clients in 2021. There were 5,965,872 adults (or 23.1 per 1,000), 2,197,002 children (or 29.9 per 1,000) served. About 17,362 (0.2 percent) clients were missing age data.
- Among SMHA clients, there were 4,394,191 (53.7 percent) females served while there were 3,730,939 (45.6 percent) males served. In 27 states and U.S. territories, more SMHA males were served than females, while in 32 states and U.S. territories, more SMHA females were served.
- The age distribution among SMHA clients was the largest among ages 25-44 with 33.0 percent, followed by ages 45-64 with 22.8 percent, children ages 0-12 with 14.2 percent, and children ages 13-17 with 12.7 percent.
- The highest percentage of SMHA clients that were served was among the White population with 57.9 percent, followed by Black or African Americans with 17.4 percent. SMHA clients served were 15.8 percent Hispanic and 74.5 percent non-Hispanic.

# Maryland 2022 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	8,180,236	38.85	24.37	59

## Note:

This table uses data from URS Table 14a, Table 14b and from the U.S. Census Bureau. All denominators use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

Residential Treatment Centers None

Overall None

**APPROPRIATENESS DOMAIN: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/SU Disorders, FY 2022**

**Maryland**

**Reporting Period: 7/1/2021 To: 6/30/2022**

<b>Adults and Children who meet the Federal Definition of SMI/SED</b>	<b>State</b>	<b>US Average</b>	<b>US Median</b>	<b>States Reporting</b>
Percent of Adults served through the SMHA who meet the Federal definition for SMI	59.8%	69.7%	74.0%	57
Percent of Children served through the SMHA who meet the Federal definition for SED	95.9%	69.0%	74.0%	57

<b>Co-occurring MH and Substance Use Consumers</b>	<b>State</b>	<b>US Average</b>	<b>US Median</b>	<b>States Reporting</b>
Percent of Adults served through the SMHA who had a co-occurring MH and SU disorder	25.6%	26.4%	22.5%	56
Percent of Children served through the SMHA who had a co-occurring MH and SU disorder	1.7%	5.7%	2.5%	56
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance use diagnosis	16.0%	29.8%	24.0%	56
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance use diagnosis	1.6%	10.5%	3.0%	56

**Note:**

This table uses data from URS Table 12.

**How are the number of clients with co-occurring disorders counted and calculated?**

An individual is considered to be dual diagnosis consumer in a given fiscal year if he or she has a diagnosis F10.xx-19.xx, (excluding F17-nicotine addiction). A list of consumers is compiled based on these diagnoses from authorizations and claims data and then matched up with claims data.

**State Notes:**

None

## General Notes FY 2022

### Maryland

URS Table Number	General Notes
3	There are more individuals served in the state hospital in FY 22 than 21 as there is a statewide multi agency effort to discharge individuals from the SH and place into community RRP beds and move those forensically involved into the state hospitals. Also, COVID restraints are removed and there are no limits on units and such to admit.
6	The state hospital number served at beginning of the year-FY 21 saw less individuals in the hospitals possibly due to COVID limitations on the number of individuals admitted to the hospital.
7	Some of the data increases/decreases are due to program and finance staff not fully understanding the table and how to accurately complete it. They are working to fully understand each line. Also, as for the other increases and decreases for Table 7, for FY22 besides having the regular BG funds, the state of Maryland also had COVID and ARPA funds, therefore there were increases/decreases across the categories.
7a	There was a new FEP program added in PG County and an applied COLA.
12	Due to a data parity issue experienced by the state of Maryland, the state is no longer able to require a couple data elements that in the past had been used to determine co-occurring status. Also, providers do not often provide additional diagnoses that are used to determine co-occurring. Not having these elements lessens those that can be classified and counted.
16	Staff in some programs have been specifically trained to implement EBP. Bi-annually the University of Maryland measures fidelity in 13 SE programs using the Dartmouth SE fidelity scale.

## **Errata Sheet to the 2022 URS Output Tables**

This page includes clarifications and corrections to the 2022 URS Output Tables.

### **ACCESS DOMAIN: Adults with SMI and Children with SED Receiving Crisis Response Services, FY 2022**

The table counts and percentages have been updated due to a processing error.

### **OUTCOMES DOMAIN: Consumer Survey Results, FY 2022**

The percentages have been updated in Response Rate for “Children: U.S.” and “Adults: U.S. Average” due to a processing error.
