

2022 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2022 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2022: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2022, 8,180,236 clients received SMHA services from 59 states and U.S. territories. This is a decrease from 8,195,517 SMHA clients in 2021. There were 5,965,872 adults (or 23.1 per 1,000), 2,197,002 children (or 29.9 per 1,000) served. About 17,362 (0.2 percent) clients were missing age data.
- Among SMHA clients, there were 4,394,191 (53.7 percent) females served while there were 3,730,939 (45.6 percent) males served. In 27 states and U.S. territories, more SMHA males were served than females, while in 32 states and U.S. territories, more SMHA females were served.
- The age distribution among SMHA clients was the largest among ages 25-44 with 33.0 percent, followed by ages 45-64 with 22.8 percent, children ages 0-12 with 14.2 percent, and children ages 13-17 with 12.7 percent.
- The highest percentage of SMHA clients that were served was among the White population with 57.9 percent, followed by Black or African Americans with 17.4 percent. SMHA clients served were 15.8 percent Hispanic and 74.5 percent non-Hispanic.

New York 2022 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	8,180,236	45.29	24.37	59
Community Utilization per 1,000 population	7,900,059	39.04	23.53	59

This table uses data from URS Table 2a, Table 2b and from the U.S. Census Bureau. All denominators for penetration rates use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:**Table 2a**

Age None
 Gender Other includes X (Non-binary).
 Race None
 Overall Source: Patient Characteristics Survey (PCS 2022); 95% Confidence Interval for the total population is 814,437 to 998,631.

Table 2b

Age None
 Gender Other includes X (Non-binary).
 Race None
 Overall Source: Patient Characteristics Survey (PCS 2022); 95% Confidence Interval for the total population is 814,437 to 998,631.

Note:

This table uses data from URS Table 14a, Table 14b and from the U.S. Census Bureau. All denominators use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 14a

Age None
Gender Other includes X (Non-binary).
Race None
Overall Source: Patient Characteristics Survey (PCS 2022); 95% Confidence Interval for the SMI/SED population is 700,637 to 860,194.

Table 14b

Age None
Gender Other includes X (Non-binary).
Race None
Overall Source: Patient Characteristics Survey (2022).

General Notes FY 2022

New York

URS Table Number	General Notes
3,6,15A	Other Psychiatric Inpatient includes persons in general hospital psychiatric units (with the exception of those with abortion and/or HIV/AIDS flags) from SPARCS and Medicaid recipients served in private psy. hospitals (CY 2021).
4	Total number of consumers employed - This is based on a two year change and there were more clients from PCS 2022 compared to PCS 2019 (last year's data).
7B, 16B	Crisis program administration and operational structures are in place, however data collection processes are still being worked on. NY plans to report these tables in the next cycle.
14A	Total number of Asian consumers with SMI/SED - This is based on a two year change and there were more clients from PCS 2022 compared to PCS 2019 (last year's data).
14A	Total number of Native Hawaiian/Other Pacific Islander consumers with SMI/SED - This is based on a two year change and there were less clients from PCS 2022 compared to PCS 2019 (last years data).
14A	Total number of Multi-racial consumers with SMI/SED - This is based on a two year change and there were more clients from PCS 2022 compared to PCS 2019 (last year's data).
15	Total number of consumers in Jail/Correctional Facility - This is based on a two year change from PCS 2022 compared to PCS 2019 (last year's data) and may be due to the many statewide reforms and initiatives.
15	Total number of consumers that were experiencing homelessness or living in shelters is based on a two year change from PCS 2022 compared to PCS 2019 (last year's data).
16	All data covers SFY4/2021-3/2022 with the exception of column "Total unduplicated N - Adults with SMI served" which sources data from PCS 2022. The "Number of Persons Receiving a Service" is larger than "Total Number of Adults with SMI" due to differing sources for information in table.

Errata Sheet to the 2022 URS Output Tables

This page includes clarifications and corrections to the 2022 URS Output Tables.

ACCESS DOMAIN: Adults with SMI and Children with SED Receiving Crisis Response Services, FY 2022

The table counts and percentages have been updated due to a processing error.

OUTCOMES DOMAIN: Consumer Survey Results, FY 2022

The percentages have been updated in Response Rate for “Children: U.S.” and “Adults: U.S. Average” due to a processing error.
