

## 2022 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2022 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2022: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2022, 8,180,236 clients received SMHA services from 59 states and U.S. territories. This is a decrease from 8,195,517 SMHA clients in 2021. There were 5,965,872 adults (or 23.1 per 1,000), 2,197,002 children (or 29.9 per 1,000) served. About 17,362 (0.2 percent) clients were missing age data.
- Among SMHA clients, there were 4,394,191 (53.7 percent) females served while there were 3,730,939 (45.6 percent) males served. In 27 states and U.S. territories, more SMHA males were served than females, while in 32 states and U.S. territories, more SMHA females were served.
- The age distribution among SMHA clients was the largest among ages 25-44 with 33.0 percent, followed by ages 45-64 with 22.8 percent, children ages 0-12 with 14.2 percent, and children ages 13-17 with 12.7 percent.
- The highest percentage of SMHA clients that were served was among the White population with 57.9 percent, followed by Black or African Americans with 17.4 percent. SMHA clients served were 15.8 percent Hispanic and 74.5 percent non-Hispanic.

# Washington 2022 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	8,180,236	25.87	24.37	59
Community Utilization per 1,000 population	7,900,059	25.70	23.53	59

## Note:

This table uses data from URS Table 14a, Table 14b and from the U.S. Census Bureau. All denominators use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

## General Notes FY 2022

### Washington

URS Table Number	General Notes
2A, 2B, 3, 4, 4A, 5A, 5B, 6, 12, 14A, 14B, 15A, 15, 16, 21	The HCA manages contracts with Behavioral Health Organizations (BHOs) for mental health (MH) and substance use disorder (SUD) treatment services in regions that have implemented Fully Integrated Managed Care (FIMC) since January 2019. As the state's Medicaid program (called Apple Health) continues to implement FIMC across the state, the responsibility for behavioral health benefits coverage transfers from BHOs to FIMC plans. As a result, we are currently at the stage of data validation of encounter data within the Behavioral Health Data System (BHDS), due to data submission issues involving some of the submitting entities transitioning from BHOs to FIMC, to Behavioral Health Services Only (BHSO), and to Behavioral Health Administrative Service Organizations (BHASOs). This is the primary reason that explains the percentage changes across tables of the 2022 URS Data.
7	Total MHBG Expenditures - Award amount increased by \$3,326,930 between 2021 and 2022. Total Medicaid Expenditures - Increase was a result of ARPA funding. Total Other Funds Expenditures - Increase was a result of ARPA funding and Cares funding. Total EBP for ESMI Expenditures - Increase was due to additional MHBG funding. Total Ambulatory/Community Non-24-Hour Care Expenditures - Increase was a result of ARPA funding. Total Administration Expenditures - Increase was a result of ARPA funding and Cares Funding.
7A	Total CSC-Evidence-Based Practices for First Episode Psychosis Expenditures - Overall MHBG funding increased and added additional contracts.
9, 11, 11a, 19A, 19B	Our data collection for the 2022 Behavioral Health Enrollee Survey is still on-going and will continue until early next year. The tables we're submitting are based on survey data collected from October 1 through November 16. The results of these tables will be updated later.

## **Errata Sheet to the 2022 URS Output Tables**

This page includes clarifications and corrections to the 2022 URS Output Tables.

### **ACCESS DOMAIN: Adults with SMI and Children with SED Receiving Crisis Response Services, FY 2022**

The table counts and percentages have been updated due to a processing error.

### **OUTCOMES DOMAIN: Consumer Survey Results, FY 2022**

The percentages have been updated in Response Rate for “Children: U.S.” and “Adults: U.S. Average” due to a processing error.
