

2022 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2022 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2022: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2022, 8,180,236 clients received SMHA services from 59 states and U.S. territories. This is a decrease from 8,195,517 SMHA clients in 2021. There were 5,965,872 adults (or 23.1 per 1,000), 2,197,002 children (or 29.9 per 1,000) served. About 17,362 (0.2 percent) clients were missing age data.
- Among SMHA clients, there were 4,394,191 (53.7 percent) females served while there were 3,730,939 (45.6 percent) males served. In 27 states and U.S. territories, more SMHA males were served than females, while in 32 states and U.S. territories, more SMHA females were served.
- The age distribution among SMHA clients was the largest among ages 25-44 with 33.0 percent, followed by ages 45-64 with 22.8 percent, children ages 0-12 with 14.2 percent, and children ages 13-17 with 12.7 percent.
- The highest percentage of SMHA clients that were served was among the White population with 57.9 percent, followed by Black or African Americans with 17.4 percent. SMHA clients served were 15.8 percent Hispanic and 74.5 percent non-Hispanic.

Wyoming 2022 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	8,180,236	25.02	24.37	59
Community Utilization per 1,000 population	7,900,059	24.53	23.53	59

Note:

Are Client Counts Unduplicated? Duplicated between Hospitals and Community **Number of States with Unduplicated Counts** 43

This table uses data from URS Table 2a, Table 2b and from the U.S. Census Bureau. All denominators for penetration rates use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2a	
Age	None
Gender	The state began collecting gender type "Unknown/Not available" in FY22 from state contracted Community Mental Health Programs. Previous URS submissions that included counts under "Not Available" were from self-reported state hospital data.
Race	None
Overall	Wyoming does not track MH pregnant women data.
Table 2b	
Age	None
Gender	The state began collecting gender type "Unknown/Not available" in FY22 from state contracted Community Mental Health Programs. Previous URS submissions that included counts under "Not Available" were from self-reported state hospital data.
Race	None
Overall	None

Note:

This table uses data from URS Table 14a, Table 14b and from the U.S. Census Bureau. All denominators use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 14a

Age	None
Gender	The state began collecting gender type "Unknown/Not available" in FY22 from state contracted Community Mental Health Programs. Previous URS submissions that included counts under "Not Available" were from self-reported state hospital data.
Race	See general comments for Asian consumers with SMI/SED and Multi-racial consumers with SMI/SED.
Overall	None

Table 14b

Age	None
Gender	The state began collecting gender type "Unknown/Not available" in FY22 from state contracted Community Mental Health Programs. Previous URS submissions that included counts under "Not Available" were from self-reported state hospital data.
Race	None
Overall	None

General Notes FY 2022

Wyoming

URS Table Number	General Notes
All	The state began collecting gender type "Unknown/Not available" in FY22 from state contracted Community Mental Health Programs. Previous URS submissions that included counts under "Not Available" were from self-reported state hospital data.
3, 6, 15A, 20A, 20B	The Wyoming State Hospital (WSH) operates and maintains a data collection and reporting system separate from the system the Behavioral Health Division (BHD) operates and maintains to collect data from community mental health centers. Therefore, client data reported to BHD from the WSH is not subject to the same requirements, field validation, and quality assurance requirements as data reported by community mental health centers. Since the BHD is not able to ensure the validity of data reported by WSH, justification is not available for any year-to-year change greater than +/-10%.
5A, 5B	The Wyoming State Hospital is not required to report payment source data. In previous years, WSH persons served have been included in the "Both Medicaid and Non Medicaid Services" category. For this reporting period, all WSH persons served have been included in the "Medicaid Status Not Available" to more accurately reflect the data collection process.
6	<p>The state has made significant efforts to clean up client episodes that have been inactive for some time. This has allowed the state to better identify active and open client episodes. As a result, the number of clients served at the beginning of the report period decreased due to the exclusion of clients that are not actively receiving services.</p> <p>The increase in LOS is a result of various occurrences including a higher number of clients with complex cases, decrease of resources and capacity at the Wyoming State Hospital within the nursing and other areas of healthcare staff, and lack of resources and capacity within the communities to receive clients following discharge.</p>
7	<p>State Hospital Other Funds are ARP dollars not related to MHBG ARP dollars; SGF were cut; State Hospital is not a part of the MHBG expenditures and is not calculated in MOE. COVID-19 relief funds: minimal funds spent in time period. ARP funds: no funds spent in time period asked. Overall State General Funds contributing to the MHBG program is \$25,582,369.00 (rounded).</p> <p>ARP funding are included in "Other funds" for the WSH. A decrease of "State Funds" is due to state budget cuts due to COVID-19. In regards to MHBG expenditures decrease, the report period is State Fiscal Year (07/01/2021 - 06/30/2022), federal funding runs from (09/01/2021 - 08/30/2022), which means providers have time to bill for services completed for the federal funding portions until the end of the grant not SFY. Wyoming State Hospital is not a part of the MHBG, they do not receive funds from the MHBG. The Wyoming State Hospital has major changes due to the ARPA funding and budget cuts received. Local is in reference to "self-generated funding to repay the omnibus land fund account, correct life safety code problems, pay for cost of emergency detention/involuntary hospitalization, and remediate conditions as identified in the Chris S. Settlement Agreement". Other is in reference to "ongoing repair/maintenance and equipment purchases at the WSH. The repair/maintenance equipment is essential in continuing to meet the needs of patients in a safe and effective manner". In regards to MHBG admin, vacant positions were filled after a mass exodus.</p>
7a	FEP/ESMI funds in FY21 were spent in SFY21; FEP/ESMI funds in FY22 were spent in SFY22 and SFY23.
7a	FFY22 funds were spent in SFY22 and SFY23, there are two months of expenditures that were not reported this reporting period due to the SFY22 time frame; and all funds for FFY21 were expended in SFY21, no carryover to SFY22 from FFY21.
8	Updated to include expenditures from 07/01/2021-08/31/2021. Technical assistance funds from GFY21 included. Salaries, indirects, general supplies, and membership fees included. Peer reviews included.
12	Wyoming is experiencing more individuals seeking services post pandemic; we have also seen an improvement in data collection by the providers.
14A	Wyoming has minimal racial diversity within the population. An increase of 7 people statewide may be attributed as part of the population increase or an increase in individuals seeking services as a result of issues stemming from the pandemic.
14A	The cause of the decrease may be due to individuals not wanting to supply complete information on their race during intake or issues with data quality from one or more providers.
15	Overall, the State experienced a 5.9% increase in homeless rate from 2020 to 2022. Some of the increase can be attributed to the return of full data collection that had been previously been slowed by the pandemic.

URS Table Number	General Notes
16A	Wyoming has changed the process with which we identify and report the number of clients admitted to and receiving CSC FEP services. This change in process was enacted to address data quality issues and data inaccuracies. The significant decrease in clients served and admissions from FY21 to FY22 can be attributed to this change
16B	Call Centers in the state do not make determinations of SMI and SED. Therefore, data from call centers on the number of SMI adults and SED children is not available. 24/7 Mobile Crisis Team services are not available in Wyoming. SMI and SED data is not required upon client admission to Crisis Stabilization Programs. This data is requested after services have been rendered and complete data is not always available.

Errata Sheet to the 2022 URS Output Tables

This page includes clarifications and corrections to the 2022 URS Output Tables.

ACCESS DOMAIN: Adults with SMI and Children with SED Receiving Crisis Response Services, FY 2022

The table counts and percentages have been updated due to a processing error.
