

2022 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2022 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2022: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2022, 8,180,236 clients received SMHA services from 59 states and U.S. territories. This is a decrease from 8,195,517 SMHA clients in 2021. There were 5,965,872 adults (or 23.1 per 1,000), 2,197,002 children (or 29.9 per 1,000) served. About 17,362 (0.2 percent) clients were missing age data.
- Among SMHA clients, there were 4,394,191 (53.7 percent) females served while there were 3,730,939 (45.6 percent) males served. In 27 states and U.S. territories, more SMHA males were served than females, while in 32 states and U.S. territories, more SMHA females were served.
- The age distribution among SMHA clients was the largest among ages 25-44 with 33.0 percent, followed by ages 45-64 with 22.8 percent, children ages 0-12 with 14.2 percent, and children ages 13-17 with 12.7 percent.
- The highest percentage of SMHA clients that were served was among the White population with 57.9 percent, followed by Black or African Americans with 17.4 percent. SMHA clients served were 15.8 percent Hispanic and 74.5 percent non-Hispanic.

Missouri 2022 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	8,180,236	12.21	24.37	59
Community Utilization per 1,000 population	7,900,059	11.99	23.53	59
State Hospital Utilization per 1,000 population	108,725	0.24	0.33	53
Other Psychiatric Inpatient Utilization per 1,000 population	433,997	-	1.53	42

Adult Employment Status	U.S.	State	U.S. Rate	States
Employed (Percent in Labor Force)*	890,626	60.9%	51.2%	58
Employed (percent with Employment Data)**	890,626	20.6%	27.2%	58

Note:

This table uses data from URS Table 2a, Table 2b and from the U.S. Census Bureau. All denominators for penetration rates use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

This table uses data from URS Table 14a, Table 14b and from the U.S. Census Bureau. All denominators use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

General Notes FY 2022

Missouri

URS Table Number	General Notes
5A	Total number of consumers with Non-Medicaid Funding only: In state FY22, Missouri offered a new Medicaid eligibility (Medicaid expansion), which allowed consumers who previously were not Medicaid eligible to get Medicaid coverage. Missouri Department of Mental Health doesn't control the funds for the expansion, so these consumers can't be included in the report. Moving a portion of DMH consumers from non-Medicaid category into Medicaid expansion category resulted in the decreased number of consumers with non-Medicaid funding only.
6	Total Admission to State Hospital During the Year decreased by 43% from 2021 to 2022: We still see a decrease in inpatient admissions in FY22 due to insufficient staffing.
6	Total Admissions to Residential Treatment Centers During the Year: Not enough staff.
7	Total MHBG Expenditures: Based on various revenue sources, MHBG was spent on the lower side in FY22 and heavier in the first quarter of FY23.
7	Total Other Funds Expenditures: Based on revenue, the need to expend Other funds for at the same level of FY21 was not needed due to service billings.
7	Total Other 24-Hour Care Expenditures: Due to workforce shortages, the total Other 24-Hour Care expenditures were lower in FY22.
7	Total Administration Expenditures: The Administration expenditures increased due to increase administrative functions of the FY22 discretionary grants.
7A	Total CSC-Evidence-Based Practices for First Episode Psychosis Expenditures: Expenditures reported in FY as CSC Evidence Based Practices for First Episode Psychosis Expenditures were determined to be a better reflection of Other Early Serious Mental Illnesses program (other than FEP or partial CSC programs) in FY22.
8	Total MHBG Expenditures for Non-Direct Service Activities: Other revenue sources were used for training in FY22 and MHBG was used for treatment services.
14A	Total number of Native Hawaiian/Other Pacific Islander consumers with SMI/SED: In FY21, 46 Native Hawaiian/ Other Pacific Islander consumers with SMI/SED were reported. Total number of Native Hawaiian/Other Pacific Islander consumers served in FY21 was 53, which makes it 86.8% of all consumers from the racial group that had an SMI/SED diagnosis. In FY20 the numbers were 37 out of 53 (69.8%) and in FY19 31 in 36 Native Hawaiian/ Other Pacific Islander consumers were diagnosed with SMI/SED (86.11%). In the most recent reporting year out of 61 consumers in the racial group 54 had an SMI/SED diagnosis, which is 88.5%. We believe that the only change from 2021 to 2022 is that DMH served more consumers who identified themselves as Native Hawaiian/ Other Pacific Islander (FY19 – 36, FY20 – 53, FY21 – 53, and FY22 – 61).
16A	Teams have been trained in components of the CSC model but not trained by CSC trainers on how to implement CSC teams at their agencies.
16B	Reflects Behavioral Health Crisis Center (BHCC) services that started in January 2022, so these are the numbers for only the second half of the fiscal year (January 2022-June 2022).

Errata Sheet to the 2022 URS Output Tables

This page includes clarifications and corrections to the 2022 URS Output Tables.

ACCESS DOMAIN: Adults with SMI and Children with SED Receiving Crisis Response Services, FY 2022

The table counts and percentages have been updated due to a processing error.

OUTCOMES DOMAIN: Consumer Survey Results, FY 2022

The percentages have been updated in Response Rate for “Children: U.S.” and “Adults: U.S. Average” due to a processing error.
