

2022 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2022 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2022: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2022, 8,180,236 clients received SMHA services from 59 states and U.S. territories. This is a decrease from 8,195,517 SMHA clients in 2021. There were 5,965,872 adults (or 23.1 per 1,000), 2,197,002 children (or 29.9 per 1,000) served. About 17,362 (0.2 percent) clients were missing age data.
- Among SMHA clients, there were 4,394,191 (53.7 percent) females served while there were 3,730,939 (45.6 percent) males served. In 27 states and U.S. territories, more SMHA males were served than females, while in 32 states and U.S. territories, more SMHA females were served.
- The age distribution among SMHA clients was the largest among ages 25-44 with 33.0 percent, followed by ages 45-64 with 22.8 percent, children ages 0-12 with 14.2 percent, and children ages 13-17 with 12.7 percent.
- The highest percentage of SMHA clients that were served was among the White population with 57.9 percent, followed by Black or African Americans with 17.4 percent. SMHA clients served were 15.8 percent Hispanic and 74.5 percent non-Hispanic.

Georgia 2022 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	8,180,236	11.80	24.37	59
Community Utilization per 1,000 population	7,900,059	11.80	23.53	59
State Hospital Utilization per 1,000 population	108,725	0.25	0.33	53
Other Psychiatric Inpatient Utilization per 1,000 population	433,997	0.66	1.53	42

Note:

Are Client Counts Unduplicated? Duplicated between Hospitals and Community **Number of States with Unduplicated Counts** 43

This table uses data from URS Table 2a, Table 2b and from the U.S. Census Bureau. All denominators for penetration rates use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2a

Note:

This table uses data from URS Table 14a, Table 14b and from the U.S. Census Bureau. All denominators use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

General Notes FY 2022

Georgia

URS Table Number	General Notes
All	State Hospital Inpatients are only included where identified and not calculated into overall totals. State hospital inpatient includes stays in Adult Mental Health and Secure (Forensics) programs. Data for hospital outpatients and non-admits (including 23-hour observation) is not included; however, hospital-operated community services are included with other community services. Community Mental Health data includes individuals authorized for residential stays in Psychiatric Residential Treatment Facilities (PRTFs) and state contracted inpatient beds. Authorizations for community services for consumers having at least one authorization with Type of Service of MH or MH/SA Co-Occurring.
All	Age unless otherwise specified: Individuals age was calculated as of the mid-point of the report period (12/31/2021). Race: "More Than One Race Reported" includes Multi-Racial. "Race Not Available" includes Other Single Race, Unknown, and not reported. Hispanic/Latino Origin: "Not Available" includes "Unknown" and not reported.
4	Table 4 reports data for community consumers only. Employment Status reported in Table 4 is the latest available for the SFY. Employment Status is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. "Employed" includes Competitive Employment and Community Based Non-Competitive Employment. "Unemployed" includes Unemployed But Available for Work = Yes. "Not in Labor Force" includes Facility Based Non-Competitive Employment and Unemployed But Available for Work = No. "Not Available" includes Not Available and Not Reported.
5A, 5B	"Medicaid (only Medicaid)" includes any consumer in Table 2A for whom a Medicaid MRO/PRTF claim was paid, but no State service encounter was reported. "Non-Medicaid Sources (only)" includes any consumer in Table 2A for whom no Medicaid claim was paid, but a State service encounter was reported. "People Served by Both Medicaid and Non-Medicaid" includes any consumer in Table 2A for whom both a Medicaid claim was paid and a State service encounter was reported. "Medicaid Status Not Available" includes all the remaining consumers in Table 2A. Individuals served in state hospitals are considered non-Medicaid (State Funded).
9	Georgia implemented an online consumer survey for the first time this year; however, the initial process did not yield enough responses to be statistically valid. The department will assess additional outreach and engagement strategies in order to promote better response rates next year.
11, 11A	Georgia implemented an online consumer survey for the first time this year, however the initial process did not yield enough responses to be statistically valid. The department will assess additional outreach and engagement strategies in order to promote better response rates next year.
12	DBHDD Collects provider reported SPMI/SED information at the time of authorization for community services because of a Federal DOJ settlement. This yields reported counts and percentages of SMI which may be artificially low because SPMI is reported.
14A	DBHDD Collects provider reported SPMI/SED information at the time of authorization for community services because of a Federal DOJ settlement. This yields reported counts and percentages of SMI which may be artificially low because SPMI is reported.
14B	DBHDD Collects provider reported SPMI/SED information at the time of authorization for community services because of a Federal DOJ settlement. This yields reported counts and percentages of SMI which may be artificially low because SPMI is reported.
15	Table 15 reports data for community consumers only. Living Situation reported in Table 15 is the latest available for the SFY. Living Situation is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. Table 15's category "Residential Care" includes living situations "Residential Care" and "PRTF" where the consumer's age was >= 18. Table 15's category "Children's Residential Treatment" includes living situations "Residential Care" and "PRTF" where the consumer's age was <18. "Crisis Residence" is not included among the response options for living situation in Georgia's information system. "NA" includes living situation Not Reported.
16	DBHDD Collects provider reported SPMI/SED information at the time of authorization for community services because of a Federal DOJ settlement. This yields reported counts and percentages of SMI which may be artificially low because SPMI is reported. "Total unduplicated N - Adults with SMI served" includes only community consumers. See also note #7. "Total unduplicated N - Children with SED" includes only community consumers. See also note #7.
16A	Grady Hospital does not serve youth so data left blank.

URS Table Number	General Notes
16B	Accessibility percentages are based on pre-988 marketing and do not measure accessibility for emerging growth. Crisis Calls represent the number of calls and not a count of individuals. Access to Crisis Stabilization Programs is targeted to the ABD Medicaid Population and Uninsured Adults. Estimating access for this service can not be determined because the uninsured population is not known. The state is awaiting SAMHSA's emerging access measures to better measure accessibility ("Horizons").
19A, 19B	Georgia implemented an online consumer survey for the first time this year, however the initial process did not yield enough responses to be statistically valid. The department will assess additional outreach and engagement strategies in order to promote better response rates next year.
20A	Data: This table presents duplicated counts of consumers discharged from a state hospital adult mental health inpatient programs between 1/1/2021 - 12/31/2021, and those consumers' subsequent readmissions within 30/180 days of discharge. Calendar year was used for this table instead of State Fiscal Year because 180 days from the end of the State Fiscal Year would not have passed by the due date of this report. Age: Data is based on the consumer's age at discharge. Race: "Race Not Available" includes "Other Single Race."
20B	Data: This table presents duplicated counts of consumers discharged from a State hospital Forensice/Secure inpatient programs between 1/1/2021 - 12/31/2021, and those consumers' subsequent readmissions within 30/180 days of discharge. Calendar year was used for this table instead of State Fiscal Year because 180 days from the end of the State Fiscal Year would not have passed by the due date of this report. Age: Data is based on the consumer's age at discharge. Race: "Race Not Available" includes "Other Single Race." Forensics individuals placed on Conditional Release are discharged. These individuals are monitored and if for any reason they are returned to the hospital, it is counted as a readmission.

Errata Sheet to the 2022 URS Output Tables

This page includes clarifications and corrections to the 2022 URS Output Tables.

ACCESS DOMAIN: Adults with SMI and Children with SED Receiving Crisis Response Services, FY 2022

The table counts and percentages have been updated due to a processing error.

OUTCOMES DOMAIN: Consumer Survey Results, FY 2022

The percentages have been updated in Response Rate for “Children: U.S.” and “Adults: U.S. Average” due to a processing error.
