

## 2022 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2022 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2022: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2022, 8,180,236 clients received SMHA services from 59 states and U.S. territories. This is a decrease from 8,195,517 SMHA clients in 2021. There were 5,965,872 adults (or 23.1 per 1,000), 2,197,002 children (or 29.9 per 1,000) served. About 17,362 (0.2 percent) clients were missing age data.
- Among SMHA clients, there were 4,394,191 (53.7 percent) females served while there were 3,730,939 (45.6 percent) males served. In 27 states and U.S. territories, more SMHA males were served than females, while in 32 states and U.S. territories, more SMHA females were served.
- The age distribution among SMHA clients was the largest among ages 25-44 with 33.0 percent, followed by ages 45-64 with 22.8 percent, children ages 0-12 with 14.2 percent, and children ages 13-17 with 12.7 percent.
- The highest percentage of SMHA clients that were served was among the White population with 57.9 percent, followed by Black or African Americans with 17.4 percent. SMHA clients served were 15.8 percent Hispanic and 74.5 percent non-Hispanic.

## Idaho 2022 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	8,180,236	7.99	24.37	59
Community Utilization per 1,000 population	7,900,059	7.57	23.53	59
State Hospital Utilization per 1,000 population	108,725	1.00	0.33	53
Other Psychiatric Inpatient Utilization per 1,000 population	433,997	1.22	1.53	42

Adult Employment Status	U.S.	State	U.S. Rate	States
Employed (Percent in Labor Force)*	890,626	45.8%	51.2%	58
Employed (percent with Employment Data)**	890,626	6.0%	27.2%	58

Adult Consumer Survey Measures	State	U.S. Rate	States
Positive About Outcome	42.9%	77.7%	52

Child/Family Consumer Survey Measures	State	U.S. Rate	States
Positive About Outcome	43.5%	70.7%	47

Readmission Rates:(Civil "non-Forensic" clients)	U.S.	State	U.S. Rate	States
State Hospital Readmissions: 30 Days	5,477	1.0%	7.8%	44
State Hospital Readmissions: 180 Days	13,252	11.7%	18.9%	48
State Hospital Readmissions: 30 Days: Adults	5,064	0.9%	8.0%	42
State Hospital Readmissions: 180 Days: Adults	12,250	11.9%	19.3%	46
State Hospital Readmissions: 30 Days: Children	413	1.8%	6.5%	21
State Hospital Readmissions: 180 Days: Children	1,002	8.9%	15.7%	22

Living Situation	U.S.	State	U.S. Rate	States
Private Residence	4,235,783	66.5%	85.8%	58
Homeless/Shelter	199,656	10.2%	4.0%	53

**Note:**

**Are Client Counts Unduplicated?** Unduplicated **Number of States with Unduplicated Counts** 43

This table uses data from URS Table 2a, Table 2b, and from the U.S. Census Bureau. All denominators for penetration rates use U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:****Table 2a**

Age Age calculated at midpoint of reporting period.  
 Gender None  
 Race Race "Not Available" includes clients that identified as "other race."

Overall Populated by the BHSIS Project Office using ID's 2022 MH-CLD BCI dataset.

**Table 2b**

Age Age calculated at midpoint of reporting period.  
 Gender None  
 Race Race "not available" includes clients who identify as "other race."

Overall Populated by the BHSIS Project Office using ID's 2021 MH-CLD BCI dataset.

## Note:

This table uses data from URS Table 14a, Table 14b, and from the U.S. Census Bureau. All denominators use U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

## State Notes:

### Table 14a

Age Age calculated at midpoint of reporting period.  
Gender None  
Race Race 'not available' includes clients that identified as "other race."

Overall Populated by the BHSIS Project Office using ID's 2021 MH-CLD BCI dataset.

### Table 14b

Age Age calculated at midpoint of reporting period.  
Gender None  
Race None  
Overall Populated by the BHSIS Project Office using ID's 2021 MH-CLD BCI dataset.

	Age NA	-	-	-	-	-	-	24	26	-	-	-	-	-

**Note:**

Resident clients are clients who were receiving services in inpatient settings at the end of the reporting period.

This table uses data from URS Table 6.

**State Notes:**

State Psychiatric Hospitals "State Hospital" does not include information on clients in Syringa Skilled Nursing Facility. The State Hospitals have been working to discharge long term clients.

Other Psychiatric Inpatient None

Residential Treatment Centers SSRS Extract.

Overall Change in numbers served was impacted by COVID-19.

**APPROPRIATENESS DOMAIN: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/SU Disorders, FY 2022**

**Idaho**

**Reporting Period: 7/1/2021 To: 6/30/2022**

<b>Adults and Children who meet the Federal Definition of SMI/SED</b>	<b>State</b>	<b>US Average</b>	<b>US Median</b>	<b>States Reporting</b>
Percent of Adults served through the SMHA who meet the Federal definition for SMI	100.0%	69.7%	74.0%	57
Percent of Children served through the SMHA who meet the Federal definition for SED	100.0%	69.0%	74.0%	57

<b>Co-occurring MH and Substance Use Consumers</b>	<b>State</b>	<b>US Average</b>	<b>US Median</b>	<b>States Reporting</b>
Percent of Adults served through the SMHA who had a co-occurring MH and SU disorder	34.0%	26.4%	22.5%	56
Percent of Children served through the SMHA who had a co-occurring MH and SU disorder	7.0%	5.7%	2.5%	56
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance use diagnosis	34.0%	29.8%	24.0%	56
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance use diagnosis	7.0%	10.5%	3.0%	56

**Note:**

This table uses data from URS Table 12.

**How are the number of clients with co-occurring disorders counted and calculated?**

Percent of clients served by the SMHA with co-occurring MH/SU diagnosis = (number of clients that have a SUD Dx code listed in the "Substance use (SU) Diagnosis" field the MH-CLD file (field number C-20))/(Number of clients that have a Mental Health Dx code listed in the "Mental Health Diagnosis - One" field in the MH-CLD file (field number C-17)). This process was performed for both clients age 0-17 (Children) and 18+ (Adults).

**State Notes:**

None

## General Notes FY 2022

### Idaho

URS Table Number	General Notes
7	Spending increased in FY22 due to the lifting of COVID restrictions. Additionally, ESMI spending increased because of the addition of two contracts for ESMI CSC programs. State hospitals also reported increased spending due to the lifting of COVID restrictions.
7a	In FY22, DBH added two ESMI CSC contracts which increased our expenditures in this category.
8	We believe several factors contributed to the decrease in spending including delays due to waiting for the legislature to grant spending authority, delays in training contracts, the transition of staff to new bureaus, and reduction in spending for travel/conferences due to ongoing issues from COVID.
9	Reduced number of responses to the survey.
11	Reduced number of responses to the survey.
12	Table 12 reflects the ongoing shift of direct services from DBH staff to community providers.
14a	We believe the increase in services provided to American Indian/Alaska Native and African American individuals increased because COVID restrictions were lifted.
16b	Numbers reflect adult mental health only. Childrens Mental Health crisis services are under development as is data collection for CMH. Call Centers: data collected may include some duplication and represents the initial capacity for Idaho's collection of behavioral health crisis data. Idaho continues to leverage existing tools to collect this data and is building additional capacity to collect the necessary data through system development and procurement. Mobile Crisis: Idaho does not currently operate a statewide 24/7 mobile crisis response. This data reflects the initial implementation of mobile crisis responses teams across the state as Idaho continues to restructure the behavioral healthcare system in the state to include services, including 24/7 Mobile Crisis. Crisis Stabilization: data collected may include duplication. Data represents numbers served for five of the seven behavioral health community crisis centers as the state builds on the existing data infrastructure to expand our capacity to collect behavioral health crisis data. Data collected represents numbers served through Idaho's behavioral health community crisis centers, and while these services closely resemble those of crisis stabilization programs, they are not fully aligned. Idaho is currently developing a statewide implementation of crisis stabilization programs through the IBHP ITN.

## **Errata Sheet to the 2022 URS Output Tables**

This page includes clarifications and corrections to the 2022 URS Output Tables.

### **ACCESS DOMAIN: Adults with SMI and Children with SED Receiving Crisis Response Services, FY 2022**

The table counts and percentages have been updated due to a processing error.

### **OUTCOMES DOMAIN: Consumer Survey Results, FY 2022**

The percentages have been updated in Response Rate for “Children: U.S.” and “Adults: U.S. Average” due to a processing error.
