

2022 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2022 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2022: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2022, 8,180,236 clients received SMHA services from 59 states and U.S. territories. This is a decrease from 8,195,517 SMHA clients in 2021. There were 5,965,872 adults (or 23.1 per 1,000), 2,197,002 children (or 29.9 per 1,000) served. About 17,362 (0.2 percent) clients were missing age data.
- Among SMHA clients, there were 4,394,191 (53.7 percent) females served while there were 3,730,939 (45.6 percent) males served. In 27 states and U.S. territories, more SMHA males were served than females, while in 32 states and U.S. territories, more SMHA females were served.
- The age distribution among SMHA clients was the largest among ages 25-44 with 33.0 percent, followed by ages 45-64 with 22.8 percent, children ages 0-12 with 14.2 percent, and children ages 13-17 with 12.7 percent.
- The highest percentage of SMHA clients that were served was among the White population with 57.9 percent, followed by Black or African Americans with 17.4 percent. SMHA clients served were 15.8 percent Hispanic and 74.5 percent non-Hispanic.

This table uses data from URS Table 2a, Table 2b, and from the U.S. Census Bureau. All denominators for penetration rates use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

This table uses data from URS Table 14a, Table 14b and from the U.S. Census Bureau. All denominators use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

What populations are reported? All Clients Number of States Reporting All Clients: 34 Number of States Reporting Some Clients: 12

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
FM	Yes	-	-	Yes	-
US	35	19	3	8	19

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumers employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as a % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

State Notes:

Age 38 clients are under the age of 18.
Gender None
Overall None

OUTCOMES DOMAIN: Employment Status of Adult Mental Health Consumers Served in the Community by Diagnosis, FY 2022

Federated States of Micronesia

Reporting Period: 10/1/2020 To: 9/30/2021

Diagnosis	State				Employed as a % of Labor Force		Employed as % of Known Employment Status		% of Consumers with Dx		States Reporting
	Employed	Unemployed	In Labor Force*	With Known Employment Status**	State	US	State	US	State	US	
Schizophrenia and Related Disorders	24	98	122	185	19.7%	32.4%	13.0%	11.8%	37.6%	12.8%	54

General Notes FY 2022**Federated States of Micronesia**

URS Table Number	General Notes
4	Seven clients are listed under "Age Not Available." The clients left the "AGE" section on their registry form blank so were included under the "Age Not Available" section.
7	The Total EBP for ESMI Expenditure increase is due to the COVID-19 Relief Funds awarded to supplement MHBG services and activities throughout the pandemic.
7	The Grand Total Expenditure increase is, again, due to the COVID-19 Relief Funds as well as the adjustment of \$12,000.
7A	The Total CSC-Evidence-Based Practices for First Episode Psychosis increase is, again, due to the COVID-19 Relief Funds spent to supplement MHBG services and activities throughout the pandemic.
8	The Total MHBG Expenditures for Non-Direct Service Activities decrease from the previous year is due to restriction of movement during the COVID-19 Pandemic. All partnership meetings, community outreach meetings, etc., for the year were either postponed to a later time or conducted virtually.
9	Due to COVID we faced so many challenges with our services to our clients in the community but slowly we were able to put people back into their normal schedules. It helps our clients as we can see on last year's results. So since the clients received better services this year, they are doing better than the previous year.
11	We surveyed those that we were able to locate.

Errata Sheet to the 2022 URS Output Tables

This page includes clarifications and corrections to the 2022 URS Output Tables.

ACCESS DOMAIN: Adults with SMI and Children with SED Receiving Crisis Response Services, FY 2022

The table counts and percentages have been updated due to a processing error.

OUTCOMES DOMAIN: Consumer Survey Results, FY 2022

The percentages have been updated in Response Rate for “Children: U.S.” and “Adults: U.S. Average” due to a processing error.
