2022 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2022 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2022: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2022, 8,180,236 clients received SMHA services from 59 states and U.S. territories. This is a decrease from 8,195,517 SMHA clients in 2021. There were 5,965,872 adults (or 23.1 per 1,000), 2,197,002 children (or 29.9 per 1,000) served. About 17,362 (0.2 percent) clients were missing age data.

- Among SMHA clients, there were 4,394,191 (53.7 percent) females served while there were 3,730,939 (45.6 percent) males served. In 27 states and U.S. territories, more SMHA males were served than females, while in 32 states and U.S. territories, more SMHA females were served.

- The age distribution among SMHA clients was the largest among ages 25-44 with 33.0 percent, followed by ages 45-64 with 22.8 percent, children ages 0-12 with 14.2 percent, and children ages 13-17 with 12.7 percent.

- The highest percentage of SMHA clients that were served was among the White population with 57.9 percent, followed by Black or African Americans with 17.4 percent. SMHA clients served were 15.8 percent Hispanic and 74.5 percent non-Hispanic.

Connecticut 2022 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	8,180,236	25.52	24.37	59
Community Utilization per 1,000 population	7,900,059	25.25	23.53	59
State Hospital Utilization per 1,000 population	108,725	0.32	0.33	53
Other Psychiatric Inpatient Utilization per 1,000 population	433,997	0.05	1.53	42

This table uses data from URS Table 2a, Table 2b and from the U.S. Census Bureau. All denominators for penetration rates use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:
Table 2a
Age   None
Gender   None
Race   DMHAS "Other" and "Unknown" are grouped together in URS "Unknown" race category.
Overall   Populated by BHSIS Project Office using CT's 2022 MH-TEDS/ MH-CLD dataset.
Table 2b
Age   None
Gender   None
Race   DMHAS "Other" and "Unknown" are grouped together in URS "Unknown" race category.
Overall   Populated by BHSIS Project Office using CT's 2022 MH-TEDS/ MH-CLD dataset.

Note:

This table uses data from URS Table 14a, Table 14b and from the U.S. Census Bureau. All denominators use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 14a
Age	None
Gender	None
Race	DMHAS "Other" and "Unknown" are grouped together in URS "Unknown" race category.
Overall	Populated by BHSIS Project Office using CT's 2022 MH-TEDS/ MH-CLD dataset.

Table 14b
Age	None
Gender	None
Race	DMHAS "Other" and "Unknown" are grouped together in URS "Unknown" race category.
Overall	Populated by BHSIS Project Office using CT's 2022 MH-TEDS/ MH-CLD dataset.

Connecticut

URS Table Number	General Notes
5A	This is suspected to have resulted from shifts in client insurance types.
6	Total Number of Consumers Served in Residential Treatment Centers at the beginning of the year & Total Admissions to Residential Treatment Centers During the Year: The reduction in 2021 vs 2022 is attributable to two primary factors: a reflection of continued practice change in favor of community-based resources over residential (RTC) care; also for some residential programs census capacity was impacted by staffing vacancies resulting in fewer youth served. Average LOS of children discharged from State Hospitals & Average LOS of children (in facility < 1 year) who were state hospital residents at the end of the year: These data were not submitted last year and we will attempt to obtain it from DCF. Average LOS of adults (in facility < 1 year) who were state hospital residents at the end of the year: LOS reduced due to increased capacity/availability for step down.
7, 7A, 8	Result of new funding column added to table.
12	Small percentage change.
16	Smaller number of clients served in 2022.
20A, 20B	Result of shifting patterns in client service utilization and statewide efforts to decrease the use hospitalization in favor of community based services.

Errata Sheet to the 2022 URS Output Tables

This page includes clarifications and corrections to the 2022 URS Output Tables.

ACCESS DOMAIN: Adults with SMI and Children with SED Receiving Crisis Response Services, FY 2022

The table counts and percentages have been updated due to a processing error.

OUTCOMES DOMAIN: Consumer Survey Results, FY 2022

The percentages have been updated in Response Rate for "Children: U.S." and "Adults: U.S. Average" due to a processing error.
